DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 08/640,474, filed on 05/01/1996.

Allowable Subject Matter

- 1. Claims 1-40 are allowed over the prior art of record.
- 2. The following is an examiner's statement of reasons for allowance:

In applicants after final remarks dated October 10, 2003 it would appear that applicant's independent claims are separate independent inventions. Examiner wishes to make the record more clearly by indicating that applicant's independent claims are a different variation of the same invention and therefore allowable.

Regarding claim 1, the prior art fails to disclose or make obvious a lens device having the light controlling means permitting light in the near and far regions of the light path to reach the focal zone without imposing a relative phase change between light in the near and far regions, and in combination with the other recited limitations of claim 1. Claims 2-26 are allowed by the virtue of dependency on the allowed claim 1.

Regarding claim 27, the prior art fails to disclose or make obvious a lens for use with optical memory disks of two types having the near region focuses light in the light path on the information bearing level regardless of which of the two types of optical memory disks, and in

Application/Control Number: 09/689,757

Art Unit: 2877

combination with the other recited limitations of claim 27. Claims 28,29 are allowed by the virtue of dependency on the allowed claim 27.

Regarding claim 30, the prior art fails to disclose or make obvious an optical pick-up device for use with optical memory disks of two types having the near region focuses light in the light path on the information bearing level regardless of which of the two types of optical memory disks, and in combination with the other recited limitations of claim 30. Claim 31 is allowed by the virtue of dependency on the allowed claim 30.

Regarding claim 32, the prior art fails to disclose or make obvious a lens device for use with optical memory disks of two types having the light controller permitting light in the near region of the light path to focus on the information bearing level regardless of which of the two types of optical memory disks, and in combination with the other recited limitations of claim 32. Claims 33-36 are allowed by the virtue of dependency on the allowed claim 32.

Regarding claim 37, the prior art fails to disclose or make obvious an optical pick-up device for use with optical memory disks of two types having the light controller permitting light in the near region of the light path to focus on the information bearing level regardless of which of the two types of optical memory disks such that light in the near axial region reaches the photodetector, and in combination with the other recited limitations of claim 37. Claims 38-40 are allowed by the virtue of dependency on the allowed claim 37.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 2877

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Stafira whose telephone number is 571-272-2430. The examiner can normally be reached on 4/10 Schedule Mon.-Thurs..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Toatley can be reached on 571-272-2800 ext. 77. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
